Citymain snaps up Burnett

Paul Kelsey, MD of Citymain Group, said the move would stand the company in good stead for the future

Tags: Acquisitions

Citymain, specialist insurance provider and administrator, has announced that with effect from 14 January 2010, Burnett & Associates has become part of Citymain Group.

Paul Kelsey – managing director of Citymain Group, said: “The synergies between the two companies are very apparent. As the convergence of cellular and internet technologies continues to drive the innovation of new and expensive portable electronics, the combination of 55 years experience will stand us in good stead for the future and ensure we continue to offer the very best service to our clients, underwriters, brokers and policy holders alike. We’re very excited about the new opportunities this will bring.”

Citymain designs insurance products for retailers of consumer electronics, online marketing companies and financial institutions. It also provides insurers and policy holders with administration services including policy issuance, premium collections and claims handling. Citymain’s head office and call centre is based in Ryde on the Isle of Wight. It also has an office in the Lloyds Building.

Burnett & Associates was founded in 1980 to arrange computer hardware maintenance through insurance as an alternative to the conventional manufacturer or third party contracts. It is now a provider and administrator of laptop and computer insurance programmes and associated support contracts for IT and other electronic equipment. Burnett’s head office is in Southampton
